

BIOLATINA and GRUPO ECOS sign Investment Agreement

Panama, March 26 2010.

GRUPO ECOS via its Ecos Sustainable Equity Fund, Inc., has taken a 15.2% interest in Brazilian biogas and biodiesel developer BIOLATINA.

BIOLATINA develops decentralized units for the production of biofuels based on vegetable oils and animal fats. ECOGENESYS specializes in technologies for the production of biodigestors. It provides integrated solutions for the production of biogas, from the technical and business viability study, consultation, implementation, financing, operation and maintenance of the units.
